

Notebook LUMI Series packaging materials Wood fiber recycling components are as follows:

White Box - Pit paper -91% recycled content

Kraft box - Pit paper -91% recycled content

Carton box - Cardboard -70% recycling content

Flat card - Cardboard -70% recycled content

Instructions - Coated paper -0% recycled content

Warranty Card - Coated paper -0% recycled content

After-sales service card - Coated paper -0% recycling content

Color box Seal - Coated paper -0% recycled content

Outer box sealing sticker - Coated paper -0% recycling content

Battery Universal Label - Coated paper -0% recycling content

NO.	PART	Weight(g)	% recycled content	The weight of the recovered material (g)
1	White Box	12560	91%	11429.6
2	Kraft box	63	91%	57.33
3	Carton box	580	70%	406
4	Flat card	120	70%	84
5	Instructions	10	0%	0
6	Warranty Card	10	0%	0
7	After-sales service card	10	0%	0
8	Color box Seal	0.3	0%	0
9	Outer box sealing sticker	0.4	0%	0
10	Battery Universal Label	0.5	0%	0
	TOTAL	13354.2		11976.93
	RESULT	90%	PASS	

The calculated percentage of wood fiber packaging is 90%, which is higher than the 35% required by item 4.7.3.1 of the EPEAT standard.
